EDUCATION

- **Indian Institute of Information Technology Sonepat**   2019 - 2023
  Bachelor of Technology - Information Technology ; CGPA: 8.72
- **R.P.S SR. SEC. School**   2017 - 2018
  Intermediate(XII) ; percentage: 93.4

EXPERIENCE

- **Zersey Infotech LLP**   Sep 2021 - Aug 2022
  SDE(web developer) Intern
    - Designed 5 daily theme based fun games for podsApp(60k+ users) that has been played over 50k+ times.
    - Designed an internal mass data upload system to firebase firestore that automated manual data uploading process.
    - Worked with famous javascript libraries like p5.js and Three.js and many more.
    - some of the responsive websites I worked on: 1. Pods Website   2. Convos Website
    - Tech stack used: HTML, CSS, Javascript, JQuery, ReactJS, Firebase

PROJECTS

- **Twitter Clone**: Twitter Clone is clone of twitter developed using **reactJS**,bootstrap and firebase where you can tweet your views with text.
  you can upload image from your local disk(Gallery) and watch that tweet in realtime. **Like feature** is also implemented.
  Twitter SignIn UI page is also designed. Click on the name of the project to see **live** deployment.

- **Login UI Page**: It is a fully responsive login UI page created with **ReactJS,React hooks,props and tailwind CSS**.
  It has both dark and light themes where you can switch accordingly .Click on the name of the project to see **live** deployment.

- **Tinder UI Clone**: TinderClone is a UI clone of one of most famous dating site tinder created with **ReactJS,React hooks,React router and props**.
  Download,login dialog and support pages are designed along side main page for desktop view only.Click on the name of the project to see **live** deployment.

- **Flash News**: FlashNews is a web application where we can get daily latest updated news on different categories like sports,health,business etc. created with **ReactJS,React hooks,React router and props**.
  It uses News API to get the latest news for you.

- **Blockchain based fake degree verification** : Created a prototype for a secure degree verification system, based on the Ethereum Protocol.
  The solidity smart contract is deployed to the network using the truffle suite.
  The end user application is cross platform web app which interacts with the network using the web3 library

ACHIEVEMENTS

- Global Rank 59 in Codechef starters 21(15010 participants)
- Global Rank 201 in Codechef Infinity2k21 Challenge)
- Global Rank 223 in Codechef lunchtime Dec 2021 Challenge
- Among top 4 percent test-takers (11,00,000+) in IIT-JEE Mains 2019

SKILLS SUMMARY

- **Languages:**   C/C++, HTML, CSS, JavaScript, JQuery, SQL
- **Frameworks:**   React.js, Tailwind, BootStrap, Redux, SASS, firebase
- **Tools:**   GIT, VS Code, MySql
